

PLANNED PARENTHOOD® FEDERATION OF AMERICA

Annual Report 2006-2007

Planned Parenthood Federation of America will leverage strength through our affiliated structure to be the nation's most trusted provider of sexual and reproductive health care; an authoritative and passionate advocate for our clients and society; and at the forefront of developing the next generation of leaders of the sexual and reproductive health and social justice movement.

— Vision for the Planned Parenthood National Plan of Action for 2008 – 2011

ABOUT PLANNED PARENTHOOD® FEDERATION OF AMERICA

Planned Parenthood® Federation of America, Inc., (PPFA®) is the nation's leading sexual and reproductive health care provider and advocate serving women, men, teens, and families. We do more than any other organization in the United States to prevent unintended pregnancies and protect women's health and safety.

Planned Parenthood provides the highest quality sexual and reproductive health care, education, and information to five million women, men, and teens worldwide each year. Planned Parenthood's 107 affiliates operate more than 860 local health centers across the United States. Planned Parenthood's real-world experience as a provider of health care services informs our policies and advocacy. In partnership with more than four million activists, supporters, and donors, we promote effective education and prevention policies, protect a woman's right to choose, and challenge government interference in the most personal decisions of women and their families.

Planned Parenthood Federation of America is a not-for-profit organization led by experts in medicine, sexual health, advocacy, law, communications, and fundraising. Our national offices in New York City and Washington, DC, provide support for the dual health and advocacy mission of our affiliates across the country.

Separately incorporated, the Planned Parenthood Action Fund strengthens our commitment to protect women's health, educate teens, and reduce the number of unintended pregnancies through advocacy, lobbying, and voter education.

PLANNED PARENTHOOD® A MESSAGE FROM OUR CHAIR AND OUR PRESIDENT

The role of Planned Parenthood, as health care provider, educator, and fierce and compassionate advocate for reproductive health and rights has never been more important.

The world is changing — in terms of demographics, politics, health care delivery, and how information is transmitted. Planned Parenthood must anticipate these changes to better serve our patients, advocates, and supporters of tomorrow, while at the same time we focus on their needs today.

Increasingly diverse communities across America have differing health care needs, and we continue to adapt to help meet them. This requires greater cultural competency on our part and staff who reflect our diverse clients. We also recognize that the key to successful health care delivery is nationwide standardization — from ensuring our clients' ability to reach us online to our ability to track patients through electronic medical records.

As you will read in this year's report, we continue to reach more clients, both in person and online. In the last year, our affiliate health centers served 3.1 million women, men, and teens, providing the services that people have come to rely on us for, including contraception (38 percent of our total services), testing and treatment for sexually transmitted diseases and infections (29 percent), cancer screening and prevention (19 percent), and abortion services (three percent). We also provided comprehensive, medically accurate sex education to an additional 1.2 million women, men, and teens.

As the world has moved online, so has Planned Parenthood. In the last year, we expanded Planned Parenthood Online to create a reproductive health care resource that is available to our clients 24 hours a day, seven days a week. Approximately 1.25 million visitors a month come to www.plannedparenthood.org and www.teenwire.com, to find sexual health information, locate a health center, renew a birth control prescription, or connect to our advocacy network.

Our work also extends beyond our borders. Planned Parenthood provided nearly \$2.6 million in direct financial assistance to partner organizations throughout Africa, Asia, the Caribbean, and Latin America, enabling them to deliver health care and education to 585,000 people.

Our work as a health care provider and educator strengthens us every day as a powerful advocate for the health and rights of women and young people. Last year we continued to promote our Prevention First policy agenda, with an increasing focus on ending the government's ineffective \$1.5 billion abstinence-only effort. The tide is shifting in America, and last year 10 governors refused federal abstinence-only dollars. Common sense demands that we offer young people comprehensive, medically accurate sex education, which covers both abstinence and contraception. In addition, Planned Parenthood continued to promote increased family planning support at the state and federal levels, and increased access to affordable and accessible birth control, fighting legislation that would allow pharmacists to refuse to dispense birth control.

We've also worked in the nation's courts, with our blue-ribbon litigation team defending basic reproductive rights for women and families. For the first time ever, a Planned Parenthood attorney argued before the U.S. Supreme Court, in *Gonzales v. Planned Parenthood*, making our case against the federal abortion ban. When the court upheld the law 5-4, we immediately responded to the court's outrageous interference in what should be a private decision between a woman and her doctor. And as the 2008 elections draw near, we will continue to call attention to the vital issue of women's reproductive rights and safety.

Thanks to the unwavering commitment and courage of Planned Parenthood volunteers, activists, supporters, and staff, the past year has been a time of great change and growth for Planned Parenthood. As we confront new challenges and make additional gains, we hope you will remain a steadfast ally in this fight.

PLANNED PARENTHOOD® PROVIDING TRUSTED HEALTH CARE SERVICES

From the 450 women who crowded into Margaret Sanger's first clinic, the number of women, men, and teenagers Planned Parenthood affiliate health centers serve has steadily grown to more than three million a year — totaling about 30 million since 1916. One in four American women has turned to Planned Parenthood for health care at least once in her life.

EXCELLENCE IN MEDICAL STANDARDS AND TRAINING

Planned Parenthood health care experts are recognized authorities in all aspects of reproductive health care, including patient care, health care policy, education, research and technology, and public information. Last year in collaboration with the PPFA National Medical Committee of leading U.S. doctors and researchers, we published new guidelines for the medical management of men's reproductive care, periodic well-woman care, and care for transgender people as part of our ongoing effort to support innovative, evidence-based clinical services and health care. In partnership with academic centers, pharmaceutical and biotechnology companies, and state departments of health, Planned Parenthood affiliates undertook several research projects in an effort to continuously improve

health care and services, including research on emergency contraception and medication abortion service delivery. We developed two comprehensive medical continuing education programs — "Putting risk into perspective: Making informed decisions about hormonal contraception" and "Managing HPV: A new era in patient care."

PPFA ensures the highest medical care and standards for our clients by continuously monitoring affiliate compliance with our rigorous medical standards and guidelines through our accreditation process. Last year, to strengthen and improve affiliates' clinic operations and education services, we made more than 160 visits to 63 affiliates to provide technical assistance and

Contraception is basic health care, and Planned Parenthood is dedicated to providing women, men, and teens with the highest quality and most affordable products in the face of rising prices and dwindling government support.

The Resource Alliance at Planned Parenthood is a collaborative effort between affiliates and the national organization that ensures our clients, regardless of their incomes, have access to a broad range of top-quality contraceptive products and exceptional health care. The Resource Alliance negotiates and maintains 18 contracts with partnering companies to enable Planned Parenthood clients to continue to receive the highest quality products at the most affordable prices. The Resource Alliance also has started phase

HIGH-QUALITY, AFFORDABLE HEALTH CARE PRODUCTS

one of a project to provide a centralized information system for affiliates, and continues to pursue affordable and reliable products and services.

To protect the Planned Parenthood trademark and ensure affiliate compliance with *PPFA Standards of Affiliation* and the *PPFA Manual of Medical Standards and Guidelines*, we conducted 28 affiliate accreditation reviews, including visits to 135 health centers. Acknowledging creativity in clinical services, we presented the 2006 PPFA Sylvia Clark Award to Mt. Baker Planned Parenthood (Bellingham, WA) for implementing a paperless electronic medical record system in all three of its clinics.

training in practice and financial management, business planning, human resource/organizational development and governance, security, and diversity.

In line with our commitment to prevention and to superior products, Planned Parenthood distributed approximately nine million Planned Parenthood® Condoms nationwide in the last 12 months. Promoting the importance of safer sex, the package features the Planned Parenthood name, as well as a dedicated toll-free "smart" line that directs callers to the Planned Parenthood health center nearest them. This smart line supplements our primary toll-free number — 1-800-230-PLAN — which connects hundreds of thousands of callers to affiliate health centers each year.

HEALTH SERVICES

The heart of Planned Parenthood affiliates' work is providing trusted health care services that prevent unintended pregnancies through contraception, reduce the spread of sexually transmitted infections through testing and treatment, and prevent cervical and other cancers through screening. Planned Parenthood health centers also provide women facing unplanned pregnancy with unbiased information and discussion about their options — parenting, adoption, and abortion. Planned Parenthood health centers work closely with social service and adoption agencies in their communities to ensure the best possible referrals for women who choose to continue their pregnancies. In 2006, Planned Parenthood health centers delivered 1.4 percent more contraception services than in 2005. Overall, our health centers provided sexual and reproductive health care to more than 3.1 million women and men, increasing by 2.6 percent the total number of clients served between 2005 and 2006.

TOTAL SERVICES = 10.5 MILLION

Prevention is the cornerstone of our services — 81 percent of our clients received contraception services in 2006.

*Reflects updated data.
 **Reversible contraceptive method chosen by Planned Parenthood clients: oral, 45.6 percent; non-prescription barrier, 18.4 percent; no method, 10 percent; progestin-only injectables, 9 percent; combined hormone patch, 4.7 percent; other/unknown, 5.5 percent; combined hormone ring, 5 percent; IUD, 1.5 percent; prescription barrier, 0.1 percent; fertility awareness-based methods, 0.2 percent.
 ***A colposcopy examination aids in the diagnosis and treatment of abnormal growth cells in the cervix. LEEP and cryotherapy are treatments for abnormal growths.
 ****Some examples in this category include WIC services (a federally funded nutrition program for low-income women, infants, and children up to the age of five), pediatric care, and immunizations.

PLANNED PARENTHOOD® EDUCATING WOMEN, TEENS, AND FAMILIES

Planned Parenthood serves as a leader in advancing sexual health by providing medically accurate, age-appropriate sexuality information and education. Last year we offered effective sexuality education programs to 1.2 million youth and adults. Through our websites and award-winning publications, Planned Parenthood delivers information that is essential to allowing women, men, teens, and families to make responsible choices about their sexual and reproductive health.

ONLINE HEALTH INFORMATION AND EDUCATION: 24 HOURS A DAY, SEVEN DAYS A WEEK

Planned Parenthood Online is a collaborative effort of the national organization and participating affiliates to create the leading sexual and reproductive health care resource available to people 24 hours a day, seven days a week. Planned Parenthood Online promotes involvement across a variety of interactive media platforms, including website properties (plannedparenthood.org® and teenwire.com®, our award-winning website for teens) Web 2.0 (social-networking sites, user-generated content sites, and blogs) e-mail (interactive campaigns and newsletters)

During the past year, Planned Parenthood Online reached a number of important milestones, including a monthly high of one million unique visits on plannedparenthood.org and 500,000 on teenwire.com an average of 10,000 searches per day on plannedparenthood.org for locating health centers a list of 600,000 valid e-mail addresses a total of 35,000 social networking participants from websites like Myspace and Facebook

With Planned Parenthood Online, our goal is to harness interactive technology to overcome barriers to access, and provide an opportunity to vastly increase the number of people Planned Parenthood serves, educates, and engages to make a difference in their lives.

CONNECTING WITH TEENS

Planned Parenthood serves as a leader in promoting sexual health among young people nationwide by providing medically accurate, age-appropriate sexuality education. In addition to online resources for teens, a range of programs at the national and affiliate levels promote open dialogue, creative learning, mentoring, community involvement, and peer education opportunities.

Real Life. Real Talk.® is a social change effort to encourage healthy communication about sexuality within families and communities and, in the process, nurture discussions that are more realistic, positive, and productive for young people. After talking with thousands of parents, teenagers, and community leaders, Planned Parenthood developed this program to give parents the tools they want to be able to talk with their children about sexuality and health. The program reaches out through 141 local community partners that do not traditionally work with Planned Parenthood, including public libraries, prominent medical institutions, and faith organizations. Last year, we launched *Real Life. Real Talk.* in Portland, ME, Rockland County, NY, and Tucson, AZ. Independent evaluations show positive results in Portland and Tucson, demonstrating community-wide increases in openness about, acceptance of, and engagement in healthy sexuality after *Real Life. Real Talk.* was launched. We have secured funding to expand programming to diverse markets and to improve the knowledge and sexual health of all young people.

The screenshot shows the 'Real Life. Real Talk.' website. At the top, it says 'Encouraging open, honest, and balanced talk about sex and relationships.' Below this is a navigation bar with links: ABOUT US, SEX ED FOR PARENTS, PARTNERS, MORE INFO, and RESOURCES. The main content area is titled 'SEX ED FOR PARENTS' and lists several events:

- Rockland County, NY (click for more details)**: January 5 - 3:30 p.m., Rockland County School, 433 Road Street, 123 Johnson Ave. January 6 - 7 p.m., Women's History, 444 South Main St.
- Portland, ME (click for more details)**: January 5 - 6 p.m., Maine Medical Center, conference room B, 234 Main Street. January 6 - 7 p.m., Western Center, 45 Jones Street.
- Tucson, AZ (click for more details)**: January 5 - 11 a.m., Local School cafeteria, 213 School Street. January 6 - 4 p.m., Another venue, 222 South Street.

Below the events list, there is a 'WHAT'S NEW' section with a link to 'When is a good time to start talking to my child about sex?' and a 'REAL TALK' section with a link to 'REAL TALK: REAL LIFE. REAL TALK. EVENTS'.

AFFILIATE EDUCATION PROGRAMS

TEAMING UP

A collaboration between Planned Parenthood of Southwest and Central Florida, the Sarasota County Health Department, and the Truine Missionary Baptist Church provided free teen clinical services, parent and youth education programs, and community awareness activities through the church. This multi-faceted program built strong relationships between the affiliate and the African-American community, and netted positive results, with no participants testing positive for pregnancy or sexually transmitted infections during or after their participation.

DEALING WITH DISABILITY

Staff from Planned Parenthood of Nebraska and Council Bluffs, Iowa, taught sexual health courses to parents of youth with developmental disabilities, as well as university special education students and group home and vocational rehabilitation staff in

HELPING TEEN MOTHERS

a variety of settings. Recognizing the challenges adults face in addressing these issues, trainers offered pragmatic, concrete guidelines for working with this vulnerable population. Planned Parenthood Mar Monte provided a supportive environment for pregnant and parenting teens called Teen Success. The program helps participants maintain family size until they finish high school. Participants meet weekly to learn skills to cope with the challenges of parenthood and adolescence.

PPFA Deputy Director of Litigation and Law Eve Gartner on the steps of the U.S. Supreme Court after arguing, in *Gonzales v. Planned Parenthood*, against the government's outrageous interference in what should be a private matter between a woman and her doctor.

PLANNED PARENTHOOD® ADVANCING REPRODUCTIVE HEALTH AND RIGHTS

In Congress and in statehouses, in the courts, and in the media, Planned Parenthood is a passionate and trustworthy advocate for policies that enable access to comprehensive sexual and reproductive health care, education, and information. Whether talking to members of Congress or arguing cases before the U.S. Supreme Court, we fight for positive policies that promote women's health, prevent unintended pregnancies through effective family planning programs, and protect the health of young people through comprehensive sexuality education.

ADVOCATING IN WASHINGTON, THE STATES, AND LOCAL COMMUNITIES

In Congress and in state legislatures last year, PPFA led advocacy efforts to champion commonsense measures to improve the health of women and families. After the 2006 elections, PPFA worked with the new congressional leadership and our national coalition partners, gradually refocusing the public debate on prevention and gaining the support of a growing number of elected officials. We supported the introduction of the federal Prevention First Act in the U.S. Senate and the House of Representatives in the beginning of the 110th Congress, as well as more than 100 proactive measures in 32 states.

Our efforts to promote prevention generated tangible results across the nation, including the following:

- Ten states enacted family planning funding measures or legislation to increase access through Medicaid waivers (DE, HI, MA, MI, MN, NH, NY, TX, VA, and WA).
- In Congress last year, Planned Parenthood fought to expand access to basic health care for low-income children and adults without health insurance. The Senate passed the State Children's Health Insurance Program (SCHIP), and the House voted to support expanding SCHIP through the Children's Health and Medicare Protection Act (CHAMP). President Bush vetoed the bill at the end of 2007, and the program was extended without covering an additional 10 million children.
- Oregon joined 26 other states that mandate insurance coverage for prescription contraception.
- Connecticut, Minnesota, and Oregon passed bills mandating access to emergency contraception in hospital emergency rooms, and Arkansas and Colorado now require emergency rooms to provide emergency contraception related services.
- Ten states rejected federal funding for abstinence-only programs, and Washington State passed the Healthy Youth Act, ensuring that teens will receive comprehensive sex education in public schools.

On April 18, when the U.S. Supreme Court announced its decision in *Gonzales v. Planned Parenthood* and *Gonzales v. Carhart*, the two cases challenging the first-ever federal abortion ban, we launched an aggressive advocacy and media campaign, outlining why this ruling is out of touch with the basic values of American voters.

In November, South Dakota's voters defeated a state abortion ban ballot initiative, with Planned Parenthood staff and volunteers having made more than 40,000 phone calls and knocked on close to 30,000 doors. For the second year in a row, Planned Parenthood affiliates in California helped defeat a ballot initiative to restrict minors' access to abortion. Affiliates in Oregon also

helped defeat a similar ballot initiative, with the governor praising Planned Parenthood for having the best field operation in the state. We continued to fight attempts to restrict or ban abortion in state legislatures. Mobilizing our grassroots base and promoting prevention messages that highlight our opponents' hypocrisy, we helped halt 20 abortion bans in 12 states. We also hosted the Public Affairs Retreat and Roundtable in Washington, DC. More than 150 Planned Parenthood affiliate staff learned how effective legislative and organizing strategies advance our priority issues.

► Pro-choice activists express their outrage at the U.S. Supreme Court decision in *Gonzales v. Planned Parenthood*, upholding the federal abortion ban that allows politicians to make medical decisions about women's health and safety.

PARTNERING WITH ACTIVISTS AND SUPPORTERS ACROSS AMERICA

The successful mobilization of our activists to participate in ballot initiative campaigns in California, Oregon, and South Dakota is an example of Planned Parenthood's power as a 50-state advocacy organization with more than four million activists, supporters, and donors. The Planned Parenthood Action Network, which mobilizes activists around the country in support of our goals, recruited more than 200,000 new activists last year. Also aiding our advocacy efforts are networks of pro-choice clergy members, Republican activists, young women and men on college campuses, and leaders in the arts and entertainment industries.

- Pharmacy refusals to provide emergency contraception (EC) and other birth control to women are an increasing threat to reproductive rights, and we continue to work with major retailers to ensure favorable store policies. When the U.S. Food and Drug Administration finally approved over-the-counter (OTC) sales of EC in August 2006, we established the Planned Parenthood **Pill Patrol** to monitor pharmacies and ensure the availability of contraceptives. A survey of local pharmacies by nearly 2,500 volunteers revealed that several Wal-Mart pharmacies had refused to stock or to dispense EC. PPFA's nationwide grassroots network succeeded in convincing the giant retailer to revise its policy, which, as of April, ensures that customers "will now receive their prescriptions or OTC products in store without discrimination (no harassment or lectures)," "without delay," and "without judgment."

PROTECTING WOMEN'S LEGAL RIGHTS

- Planned Parenthood's advocacy work last year also extended to the federal and state courts across the country, where we worked to protect women's health and safety and the reproductive rights of all Americans.
- We argued *Gonzales v. Planned Parenthood*, our challenge to the first federal law banning abortion, in the U.S. Supreme Court. PPFA Deputy Director of Litigation and Law Eve Garner, the first PPFA staff attorney to appear before the high court, argued that the ban threatens women's health and safety. By a vote of 5-4, the court upheld the law, criminalizing abortions that doctors say are often the safest and best to protect women's health, and ruling that politicians, rather than women and their doctors, will now make medical decisions. This dangerous decision was clearly the result of the new makeup of the Supreme Court.
- We conducted successful litigation in the Indiana state court to protect the privacy of our patients' medical records. In that case, we challenged intrusive demands made by politically motivated anti-choice prosecutors. In granting the protection we sought, the state court recognized the significant privacy concerns associated with our patients' medical records.
- We obtained favorable court rulings in two federal court cases — in Michigan and Ohio — and one state court case in Missouri, all of which protected access to reproductive health care for Planned Parenthood patients.

- Members of our **Clergy Advisory Board** (CAB) speak out about the theological basis for choice and mobilize fellow clergy and lay religious leaders to join the **PPFA Pro-Choice Religious Network**, a national membership organization advocating for the right of women and men to make informed, morally responsible choices about their reproductive lives. Clergy members at the affiliate level support grassroots advocacy efforts and educational programming. Last year, CAB members issued statements on stem cell research, the federal abortion ban, birth control access and pricing, so-called "crisis pregnancy centers," and comprehensive sex education. PPFA also published the *Clergy Voices* newsletter, coordinated the first-ever interfaith convocation at the Planned Parenthood annual conference, hosted clergy organizing events at all three Planned Parenthood regional meetings, and helped affiliates build local clergy networks.
- We kicked off a new youth initiative last year with a **Young Leaders Summit** at the Planned Parenthood annual conference attended by 51 young leaders from 13 states and the Philippines. They spent two days organizing, training, networking, and brainstorming. Approximately 20 youths took part in a direct action training at the Public Affairs Retreat and Roundtable in Washington, DC, in July.

- Through *Vox®: Voices for Planned Parenthood*, Planned Parenthood mobilized nearly 35,000 young women and men in 180 college chapters across the country. Using MySpace.com (www.myspace.com/standwiththestates), Vox educated and energized nearly 5,000 supporters who participated in activities and high-visibility events, primarily in response to threats to abortion access. Vox members also participated in Planned Parenthood's successful efforts to defeat anti-choice ballot initiatives in California, Oregon, and South Dakota.
- **Planned Parenthood Republicans for Choice®** (RFC) played a vital advocacy role at both the federal and state levels. Last year, we held house parties and other activities involving pro-choice Republicans in at least 15 states, focusing on the Planned Parenthood Prevention First agenda. The RFC presented its Barry Goldwater Award to California Assemblyman Dr. Keith Richmond for his work as a 100-percent pro-choice legislator.
- More than 400 leaders in the arts and entertainment industries are volunteer members of the **PPFA Board of Advocates** (BOA). Their public support is an invaluable aid to Planned Parenthood's mission.

HIGHLIGHTS OF EVENTS SUPPORTED BY PPFA BOARD OF ADVOCATES MEMBERS AND OTHER ARTS AND ENTERTAINMENT LEADERS

Blythe Danner and **Gwyneth Paltrow**, **Felicity Huffman** and **William H. Macy**, **Julianne Moore**, and **Gloria Steinem** lent their names to extraordinarily successful online fundraising appeals.

Glamour magazine Editor in Chief **Cindi Leive** hosted a breakfast to introduce **PFFA President Cecile Richards** to other women's health magazines. As a result, several stories were published in numerous prominent publications.

Lauren Graham, **Neil Patrick Harris**, and **Stanley Tucci** hosted the **PPFA 2007 Honors Awards Gala** in Universal City, CA. Among our special guests were **Blythe Danner**, **David Eigenberg**, **Wendie**

(l-r) Dr. Ruth Westheimer, Neil Patrick Harris, and Tamera Tunie

PLANNED PARENTHOOD® PROMOTING GLOBAL HEALTH

Planned Parenthood's concern for reproductive health and freedom extends around the world. We work with partner organizations overseas to improve the sexual health and well-being of individuals and families, and fight at home and abroad to secure responsible policies affecting sexual and reproductive health globally. PPFa is also a founding member of the International Planned Parenthood Federation.

For more than 35 years, Planned Parenthood Federation of America has supported nongovernmental organizations (NGOs) in Africa, Asia, the Caribbean, and Latin America in providing reproductive health care and education to people around the world. We focus on reducing maternal mortality through increased access to contraception and safe abortion services, protecting the sexual health of youth, and improving policies on sexual and reproductive health.

Last year, PPFa provided more than \$2.6 million in direct financial assistance to 48 NGOs in 21 countries. These organizations delivered reproductive health care to more than 450,000 people, including approximately 243,000 adolescents. They also provided safe abortion and post-abortion care to more than 20,000 women, 58 percent of whom decided to initiate birth control following the procedure. In addition, our partners provided nearly 115,000 people with sexuality education through schools, community centers, sports

events, and health fairs, and reached an additional 2.6 million people with sexual health information through the radio.

Through our advocacy efforts in the United States, we engaged affiliates, activists, and coalition partners to improve global laws and policies affecting sexual and reproductive health. We also worked to reinvigorate the U.S. commitment to family planning and to ensure that U.S. foreign policies protect and promote quality sexual and reproductive health care, education, and information around the world. Nearly 90 percent of Planned Parenthood affiliates have been active in international advocacy, bringing together a diverse and vocal nationwide community of citizens to educate their neighbors, the media, and their elected officials about the importance of improving U.S. policies overseas. Last year, PPFa supported affiliate activities through grants, organizing materials, sample media, and assistance with organizing events.

PPFa's advocacy efforts contributed to the passage in the U.S. House of Representatives and the Senate Appropriations Committee of a bill that would ease restrictions imposed by the global gag rule. Reinstated by President Bush during his first days in office, the gag rule prohibits foreign organizations from receiving U.S. funding for family planning programs if they provide or talk about abortion to clients, or advocate for improved abortion laws. The rule applies even if organizations conduct these activities with non-U.S. money and regardless of whether abortion is legal in the country. Rather than reduce the number of abortions, the global gag rule expands the shortage of contraceptives in the developing world, thus increasing the number of unintended pregnancies. The bill seeks to mitigate the rule's impact by allowing foreign organizations to receive contraceptives donated by the U.S. government even if they have refused to sign on to the global gag rule.

AFRICA

The PPFA Africa Regional Office partnered with 15 organizations in Cameroon, Ethiopia, Kenya, Nigeria, and the Sudan to provide health care and sexuality education. In Ethiopia, we initiated a partnership that will enable a health and social service organization to become one of the first nongovernmental organizations providing legal abortion services under the recently liberalized abortion laws. We also expanded the work of the Kenya Reproductive Health and Rights Alliance (RHRA), which advocates for an improved legal, social, and political environment for the provision of safe abortion services. The RHRA held the first-ever mock abortion tribunal in Kenya in June to highlight the devastating effects of unsafe abortion in the country.

ASIA

The PPFA Asia Pacific Regional Office partnered with 12 organizations in India, Nepal, the Philippines, and Thailand to provide reproductive health services and education. In India, we are working to address the enormous need for reproductive health services for young people through a program that provides sexuality education, contraceptives, sexually transmitted infection testing, and safe abortion services. The program, which targets single and married adolescents, trains them to provide culturally appropriate education and services to their peers through unique venues, such as traditional ceremonies.

LATIN AMERICA

The PPFA Latin America and Caribbean Regional Office partnered with 18 organizations in Bolivia, Costa Rica, Ecuador, Guatemala, Nicaragua, Peru, and Trinidad and Tobago to provide reproductive health services and education and to advocate for better laws and policies. In Peru, unsafe abortion is among the top five causes of maternal mortality, and more than 352,000 unsafe abortions are reportedly performed each year. In order to address this, we are engaging a number of women's health organizations and reproductive health providers to expand access to high-quality services, counseling, and educational materials. We also support Peruvian women's rights organizations in their campaign to increase the number of public facilities offering safe, legal abortion services.

Our broad base of committed donors provide more than 80 percent of the national organization's revenue and nearly 20 percent of affiliate revenue — evidence of our powerful grassroots support.

Planned Parenthood Federation of America, Inc., is a tax-exempt corporation under Internal Revenue Service code section 501(c)(3) and is not a private foundation (Tax ID #13-1644147). Contributions are tax-deductible.

The IRS classifies the Planned Parenthood Action Fund as a 501(c)(4) not-for-profit organization. Contributions are not tax-deductible.

A list of all organizations that received contributions from PPFA during the year that ended June 30, 2007, may be obtained by writing to PPFA, 434 West 33rd Street, New York, NY 10001. Audited

financial statements are available upon request from the Office of the Attorney General, Department of Law, Charities Bureau, 120 Broadway, New York, NY 10271.

[a] National organization figures reflect operations of Planned Parenthood Federation of America, Inc., Planned Parenthood Action Fund, Inc. (including its Political Action Committee and other segregated fund, Planned Parenthood Votes) and The Planned Parenthood Foundation for the year ended June 30, 2007. Affiliate figures reflect the operations of 118 Planned Parenthood affiliates and are based on amounts reported in affiliate audited financial statements for fiscal years ended during 2006.

[b] Payments and receipts between affiliates and the national organization have been eliminated. These include dues, rebates, and

payments to the Guttmacher Institute. Related adjustments have been made to the balance sheet.

[c] Includes corporate contributions, foundation grants, and support from more than 900,000 active individual contributors, including individual contributions received through International Service Agencies and Federal Service Campaigns (on-the-job solicitation and contributions through payroll deduction plans for employees of federal and state governments and participating corporations). This also includes \$16.4 million of bequests.

[d] Expenses do not include capitalized expenditures for property, plant, and equipment and repayment of related loans, but do include depreciation and amortization of such property, plant, and equipment and interest expense on such loans.

SUPPORTING PLANNED PARENTHOOD®

Essential partners in Planned Parenthood's mission are our funders — generous foundations and individuals who also believe in a future world where every child born is wanted and loved, and women are empowered to safeguard their health and protect their families. Planned Parenthood offers donors the following creative options for helping to further our important work. To use our convenient and secure website to make a gift or download a donation form, log on to www.plannedparenthood.org/support or call 1-800-430-4907, extension 2, to speak with someone on our donor services team.

ANNUAL GIFTS

You can make unrestricted gifts or gifts for a specific purpose to either Planned Parenthood Federation of America (PPFA) or the Planned Parenthood Action Fund, the advocacy and political arm of PPFA. (For more information about the Planned Parenthood Action Fund, visit plannedparenthoodvotes.org.) Gifts to PPFA are tax-deductible. Gifts to the Action Fund are not tax-deductible, and we cannot accept corporate or union support. Please call Member Services, 1-800-430-4907, extension 2, or e-mail member.services@ppfa.org. Major donors can contact Annie Paulsen in our Major Gifts Department with questions, or for more information, at 1-212-261-4689 or e-mail ann.paulsen@ppfa.org.

▲Planned Parenthood supporters show their strength in South Carolina.

BEQUESTS AND PLANNED GIFTS

Bequests and life income gifts help ensure reproductive freedom for future generations. Charitable gift annuities, pooled income fund gifts, and charitable trusts can also provide lifetime payments to you. Please call Gift Planning, 1-212-261-4345 or e-mail gift.planning@ppfa.org.

MONTHLY GIVING

Strengthen PPFA through a sustaining membership or monthly gifts transferred directly from your bank account or credit card. Please call Sustaining Members, 1-800-430-4907, extension 1, or e-mail monthly.member@ppfa.org.

GIFTS OF STOCK

Receive a charitable deduction for the full, fair market value of your gift to PPFA, along with an exemption from capital gains tax, on shares you have owned for at least one year — subject to legal limits. Please call Member Services, 1-800-430-4907, extension 2, or e-mail member.services@ppfa.org.

HONORARY OR MEMORIAL GIVING

Celebrate the lives and achievements of special individuals by making gifts in their honor or memory. Please call Member Services at 1-800-430-4907, extension 2, or e-mail member.services@ppfa.org.

WORKPLACE GIVING

Help sustain Planned Parenthood through the Combined Federal Campaign, your local United Way, and other workplace campaigns. Under our matching gifts program, your employer may double or even triple the value of your gift. Your company's human resources office can provide appropriate information. Please call Workplace Giving at 1-212-261-4682 or e-mail member.services@ppfa.org.

PLANNED PARENTHOOD LEADERSHIP COUNCIL

The Planned Parenthood Leadership Council is a select group of our most committed supporters, united by their vision and their investment in the future of Planned Parenthood. The Leadership Council joins key supporters of the national organization and affiliates from all regions of the country, and represents a range of interests, professions, and expertise.

The Leadership Council functions as a donor advisory circle for Cecile Richards, president of Planned Parenthood Federation of America and the Planned Parenthood Action Fund, and for local Planned Parenthood affiliate CEOs. One annual meeting, regular phone briefings, a newsletter, and other communications allow Leadership Council members to get to know Cecile, key affiliate CEOs, and one another. The annual meeting features high-profile public figures who update members on the latest in the reproductive health and rights movement and other issues critical to Planned Parenthood's work. Meetings create a forum for the fruitful exchange of ideas and perspectives, capitalizing on members' unique skills and expertise.

Leadership Council members commit to a minimum contribution of \$100,000. The gift can be paid over a period of up to four years, and can be made to an affiliate, Planned Parenthood Federation of America, the Planned Parenthood Action Fund, or a combination of the above.

WITH SPECIAL THANKS TO OUR DONORS

In these pages, it is our privilege to honor you, our major donors, and your extraordinary contributions to protecting women's health and defending reproductive freedom. Your generosity makes all of our work possible. Your support helps safeguard the privacy and maintain the autonomy of women and men in the United States and worldwide — and brings us closer to the day when every child is wanted and loved.

The gifts recognized on these pages may have been made to Planned Parenthood Federation of America, the Planned Parenthood Action Fund, or a combination of both.

LEGACY SOCIETY

Planned Parenthood is honored to recognize the wonderful men and women who are members of the Legacy Society. These individuals have made a commitment to the future of Planned Parenthood by designating a gift for the national organization in their estate plans. Whether through wills, trusts, charitable gift annuities, or retirement funds, their future gifts will be vital to our continued work and leadership in the fields of family planning and reproductive health.

If you have included Planned Parenthood Federation of America in your estate plans and you do not see your name listed below, please contact the Office of Gift Planning at 212-261-4345 or via e-mail at gift.planning@ppfta.org. We will gladly add you to next year's listing.

— Enny Cramer, Pennsylvania

"My long experience as a social worker has strengthened my conviction that if we could make every child a wanted child, we would solve some basic problems in our world. Wanted children are generally loved, which helps them to develop a strong ego and healthy self-image. This in turn enables them as adults to develop positive values. Strong people do not have the need to abuse others. Instead, they care for others, using their God-given free will to overcome selfishness and aggression. This is why PPFA is my main beneficiary."

Ms. M. Allison Contos

— Alice Dahle, Iowa

"As a longtime activist for the human rights of women, I believe education is empowering. I appreciate the unbiased, scientifically based information about reproductive health provided by Planned Parenthood at the local, national, and international levels, which allows women and girls to make informed decisions to improve their own lives and the futures of their family members. It stands to reason that when women and girls are educated, their families and their societies benefit. Supporting Planned Parenthood is my way of contributing to a better life for women and girls around the world."

— Mary Fugle, New York

"Getting hit by a car made me realize I should make sure my estate is handled according to my wishes. I am 55 and a small-business owner with no children. My family is fortunate not to need my assistance. Reproductive rights seem to be in the same jeopardy as they were when I first became sexually active. Having once considered an abortion, I want all women to have the option of choice, so I am confidently entrusting PPA with my legacy."

"My husband, Jack, and I are firm believers in everything that Planned Parenthood is committed to, including good health for all; an informed public; happy, welcomed children; and a government that stays out of our bedrooms. In our estate planning, we have included both Planned Parenthood of Connecticut, which provides health care for more than 64,000 Connecticut residents, and PPA, which fights the good fight nationally and internationally. I put on my marching shoes once to go to Washington, DC, taking our young daughter with me to support women's health issues and would do it again in a heartbeat."

"Parenthood is a gift, not a burden. Therefore, when a young woman has an unintended pregnancy, she should have the option of abortion. But of course Planned Parenthood offers so much more than abortion services. It offers information and birth control, which are a must, especially for teens. As the saying goes, 'an ounce of prevention is worth a pound of cure.'"

Founded by Margaret Sanger in 1916 — more than 90 years ago — as America's first birth control clinic, Planned Parenthood believes that everyone has the right to choose when or whether to have a child, that every child should be wanted and loved, and that women should be in charge of their destinies.

MISSION STATEMENT

Planned Parenthood believes in the fundamental right of each individual, throughout the world, to manage his or her fertility, regardless of the individual's income, marital status, race, ethnicity, sexual orientation, age, national origin, or residence. We believe that respect and value for diversity in all aspects of our organization are essential to our well-being. We believe that reproductive self-determination must be voluntary and preserve the individual's right to privacy. We further believe that such self-determination will contribute to an enhancement of the quality of life, strong family relationships, and population stability.

Based on these beliefs, and reflecting the diverse communities within which we operate, the mission of Planned Parenthood is

- to provide comprehensive reproductive and complementary health care services in settings which preserve and protect the essential privacy and rights of each individual
- to advocate public policies which guarantee these rights and ensure access to such services
- to provide educational programs which enhance understanding of individual and societal implications of human sexuality
- to promote research and the advancement of technology in reproductive health care and encourage understanding of their inherent bioethical, behavioral, and social implications.
